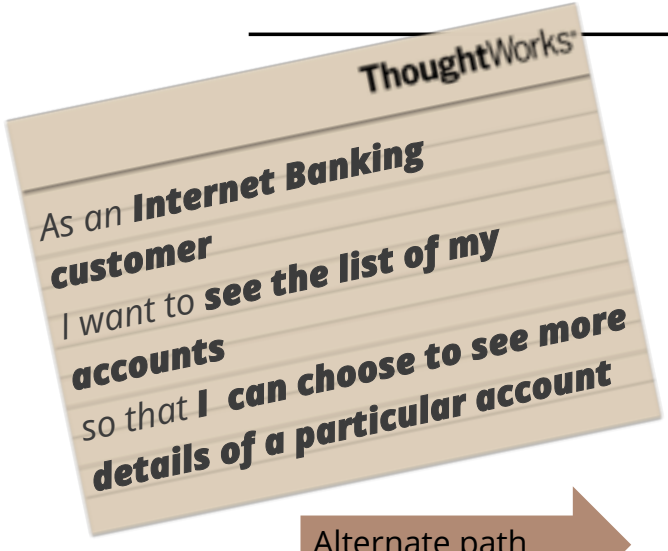
ACCEPTANCE CRITERIA



Given the customer has one transaction account and one credit account
When they have completed logging in
Then the screen should show the names and numbers of the two accounts sorted in account number order

Given the customer has just one transaction account
When they have completed logging in
Then the screen should show the name and number of the account

Alternate path

Given the customer has no accounts
When they have completed logging in
Then the screen should show a message stating that no accounts are available

Alternate path

Given the customer has more than 20 accounts
When they have completed logging in
Then the screen should show the first 20 accounts (in account number order) only

Bad path

Given the customer has some accounts
And they have completed logging in
When the system cannot retrieve the account details
Then the screen should show an error message with associated code and details to contact for support
