Agile Fundamentals

A Course from
ThoughtWorks Studios

How much agile knowledge?

No knowledge

Expert

ThoughtWorks
STUDIOS
To start…

- Find a partner, so you have some balance of expertise – we call this pairing
- Take an index card – write "What We Know" on top
- Together, write-down up to 5 agile techniques and what they are used for
- You have 5 minutes for this
- One of you keep the card – we will use it later

ThoughtWorks
STUDIOS

And a second thing…

– Still in your pair, take a Post-It note
– Write one question you both agree on you want to answered by this workshop
– Stick the Post-It on the wall over here
– We will visit these questions throughout the workshop

ThoughtWorks®
STUDIOS

Introductions

– Who are you?
– What do you do?
– Why are you here?

All in 30 seconds or less.

ThoughtWorks®
STUDIOS

Housekeeping

– Mobile phones
– Laptops
– Break times
– Restrooms
– Emergencies

ThoughtWorks®
STUDIOS

What's coming up…

– Run an agile project
– Build, test, and release a product
– All using agile principles

ThoughtWorks®
STUDIOS

The workbook

– You have a workbook provided (anyone not have one?)
– Has sections relating to the agile process
– Is not filled with slides, but has relevant information
– Please take notes! There are things you need to remember
